SKILLS

Programming Languages

C | C++ | HTML | CSS | Python | JavaScript

Libraries / Framework

ReactJs | TypeScript | NextJs | Tailwind CSS | Shaden UI

Agentic AI

Clude Code | Cursor | Co-Pilot | Chat GPT

Tools / Platforms

Git | Github | AWS S3 | Jira | Figma

PROFESSIONAL EXPERIENCE

VDOIT Technologies Ltd.

10/2025 – Present

Software Engineer Intern

- Developed frontend features for an enterprise application used by a Government Defense Department, adhering to strict regulatory and security requirements.
- Built and maintained 40+ reusable UI components using React.js, Next.js, Material-UI, and Tailwind CSS, improving delivery speed by 25%.
- Implemented authentication and access control flows (JWTs, refresh tokens, protected routes) and integrated encrypted APIs for handling sensitive data.
- Collaborated closely with backend and security teams on system design, permissions, and data flow across defense and AI platforms.

DESIGN INNOVATION CENTRE (DIC), Panjab University

06/2025 – 08/2025

Frontend Engineer Intern

- Developed and updated the official DIC website using React.js and SCSS, supporting daily usage by 5,000+ visitors.
- Created 25+ reusable frontend components, improving maintainability and reducing duplicated code across pages.
- Implemented responsive layouts and ensured consistent behavior across 10+ modern browsers and device types.
- Built interactive interface elements that improved navigation flow and reduced user drop-offs by 15%.
- Worked with backend developers to integrate 15+ APIs, ensuring accurate data rendering and stable client-server communication.

PROJECTS

CartCraft

E-Shopping

- Developed a fully responsive e-commerce website using React and Tailwind CSS, for better user experience across devices.
- Implemented dynamic product listings, shopping cart functionality, and secure checkout processes.
- Leveraged React for efficient component-based architecture and Tailwind CSS for rapid UI development and customization.

Interactive Dashboard

Dynamic Data Handling and Intuitive Visualization.

- Built a dashboard UI using React.js and SCSS with a neat, modular component structure.
- Added functionality to create, edit, and delete 5+ dynamic tables with clean data handling and UI feedback.
- Integrated 3+ pie charts, 2 bar charts, and 2 line charts using Chart.js and MUI.

Weekly Wise

Task Management and Productivity Platform

- Developed a React-based web application to centralize productivity tools, increasing personal workflow efficiency by 40%.
- Engineered modules for blogs, notes, to-do lists, and planner, leading to a 25% improvement in task accountability during testing.
- Integrated authentication for secure access and data protection.

EDUCATION

Bachelors of Engineering (Electrical and Electronics)

2022 – 2026 | Chandigarh, India

University Institute Of Engineering & Technology, Panjab University

Higher Secondary Education (CBSE)

2021 – 2022 | Haryana, India

Vardey Devi Cosmo Public Sr. Sec. School, Brahmanwas, Julana, Jind

CERTIFICATES

Responsive web Design -freeCodeCamp

- Proficient in HTML (Hypertext Markup Language) for structuring web content.
- Skilled in CSS (Cascading Style Sheets) for styling, including Flexbox and Grid for layout design.

ORGANISATIONS

Training and Placement Cell

Core Member

- Managed over 20+ placement drives by coordinating logistics, scheduling, and candidate communications.

Debating Society

Head of Design

- Led design and branding initiatives for society events, ensuring cohesive visual communication across digital and print media.
